Emotional Scale

Have you ever heard of the Emotional Scale? It's a fascinating and a very popular technique for evaluating someone's relationships with all those around them. Imagine a scale calibrated to show all levels of emotional attachment from intense hatred, through complete indifference, to profound love.

What you need to do is work out where you register and you can do this by analyzing how he's been treating you in the crucial weeks since the breakup. A key indicator is the number of times he's tried to contact you. And the manner of that contact is important too. Has he been open, warm and communicative? If so, then you're still way up on his emotional scale and it may only be a matter of time before he realizes how much he misses you and wants you back.

So how do I get him back?

Read the signs and take your time and make your move once you're sure he's ready to be persuaded.
