The budget and package of every escort will be mentioned on the website so do check the price before hiring her or keeping her in option. Also carry little extra money with you when you will go for the meeting so that if you like the company and services you might like to extend the session.
5. Do check all the **photos of the escorts** posted on the website. Before booking talk to the escort directly on phone so that you can get an idea that the girl is not fake rather legitimate. If you want you can also ask these girls to send you few recent pics on watts-app to be assured about their looks because many girls also blur their face in the pictures.
