

## My Ex Won't Return My Calls – How Do I Get Through?

---

Here's a strategy for leaving him voicemail messages that will practically guarantee to have him reaching for the phone to call you back.

This is a truly vexing question. You think you've worked out how to get your ex back in your life but he won't talk to you. He won't pick up the phone. He won't even return your calls. Well, here's a strategy for leaving him voicemail messages that will practically guarantee to have him reaching for the phone to call you back.

What you need to do is take advantage of the way all normal people respond to certain well-executed cues. People act out for a multitude of reasons but two very important motives are self-interest and curiosity. If you can trigger both effectively then you have a very good chance of breaching that wall he's put up.

Voicemail messages are the source of your problem – you can leave them but you can't force him to return them. You feel powerless. But if you construct a message that he just can't ignore you're turning the shortcomings of voicemail to your advantage. He hears the message but the message promises something more. So now he has to pursue you instead of you chasing him.

### **Try something like this:**

"Hi Tom, it's Christy here. I was hoping to catch you but anyway I really wanted to say thanks for what you did for me – it's really helped me turn things around. I'd love to thank you in person, so call me back."

You can almost hear his thoughts, can't you? Something he did? What? And what's it done for you? He'll be so curious to know what your message really means that he won't be able to resist picking up the phone.
