

The Law of Attraction

The purpose of this article is to present you a tool for manifesting miracles. When you finish reading you will know what the law of attraction is, how it works and you will be able to use it for manifesting your goals.

But first I would like to ask if you have any goals. Pick one goal. It can be something as big as world peace, or personal as perfect health or maybe you just want a nice day.

... Do you have it? Now think how would you normally achieve it?

... good, let's begin:

What is The Law of Attraction?

The Law of Attraction says that thoughts became things, you become what you think about and you are getting exactly what you are feeling. By thinking about your goal as already happily achieved you will attract people and circumstances that will help you to achieve it in an easy and happy way.

Have you seen movie "The Secret"? I highly recommend watching it. "The Secret" is a movie about the law of attraction. It's not a secret at all, that knowledge was always available, but it was never explained in so simple and wonderful way, ...well almost as good as my article 😊

Now I will explain How The Law of Attraction works:

Every thought is an intention, if it is persistent and with emotion it will find a way to manifest. Follow your bliss and doors will open where there are only walls.

You must first go there in mind. Move your comfort zone to a place where your goal is, and you will naturally gravitate towards it. It can take a while, but keep imagining that you are already there, and allow it to come, when doors will open and opportunities will show up then ACT!

Example of how strong it is:

There are millionaires that go broke and they quickly go back to the top and they have a blast doing that. It is because they know the feeling, they identify with abundance. And there are people that even if they won in a lottery they loose it soon, easy come easy go. They feel uncomfortable (unfamiliar) with being abundant.

Manifestation happens only when you close the gap between the current and desired feeling. It must seem that it is the next logical step, like it has no choice but to come.

This is the time to give you **Techniques to close the gap** and let the Law of Attraction work for you:

First, think again about your goal.

Good, one tool is to use reminders, for example I always carry some pocket change, it's 1mln \$ 😊 (for a moment it's just printed imitation) I feel good about it, and I know what to do with those money when they come, and by the way do not worry, I still will post articles on this site.

If for some reasons you have negative thoughts about something, then visualize it in a pink bubble, pink is a color of unconditional love. Use a pink bubble technique to transmute everything that makes you feel unhappy and let it go, love your enemies, that's the best weapon!

Another technique is a gratitude list. Write a list of things that you are grateful for. Feeling of gratitude will help you to achieve your goal.

The last technique is an ultimate affirmation that you can repeat as often as you wish: "In an easy and relaxed manner, in a healthy and positive way, in its own perfect time and for the highest good of all, I intend ___lets say abundance_____ to come into my life and into the lives of everyone who holds this intention."

Let's summarize:

The law of attraction says that thoughts with emotions became things if you persist. Manifestation happens only when you close the emotional gap between the current and desired state. Go there in mind first, be grateful, expect it to come. Give a pink bubble of unconditional love to all obstacles, be gratefull and affirms the ideal outcome. Proper manifestation happens when you feel good about it. If you want to know more then you can start with watching movie "The Secret". Finally, I wish you success with using the Law of Attraction.
