The reasons might be many or many a times no reason at all. Maybe you both were a little bored being together after a period of time. Or maybe you said something or did things which resulted in a break up or vice versa. Whatever the reason you should first decide not to repeat it again or end up in a situation in which either of you might end up thinking about it.

Once you get back put an end to the past and start all over new again. Start an all new relationship and grow, mature and try to work on the relationship. Don't repeat the same mistakes again and try to share a better relationship with more love and affection.

Positive thinking is what can get back your ex for you. If you think negatively you might never end up with her for all your life. If you think you can then you definitely can and will get her back. Keep trying sincerely and try to be honest and truthful in your dealing and be patient. Allow her the space to discover you as a whole new person rather than push your way into her life.
