

## Visio 37 HDTV Product Review

---

Many are looking for the Visio 37 HDTV because one of the most promising companies to come out in recent years in the world of HDTV is Visio, or Vizio. They offer only a few different TV's, but they have some of the lowest prices available anywhere. They are a great starter set for those looking to take a dip in the HDTV pool without spending tens of thousands of dollars.

While Visio doesn't make a 37-inch plasma HDTV, they do make a 37-inch LCD model that is very attractive. The Visio 37" LCD L37 HDTV is the number one selling set of that size in the United States right now and it retails for 999 on their own website. In the UK, it sells for the same price but in English Pounds from retailers such as Tiger Direct. The set comes with a one-year warranty and has an excellent resolution at 1366x768.

Visio does make other sets, as well. If you must have a plasma TV, they make a 42" model and a 50" model.

The 42" plasma P42 HDTV retails for 1299 directly from Visio. It comes with a mind blowing contrast ratio of 10,000 to 1 which makes for an exceptionally clear picture. The set can also show up to 231 billion different colors. One can only imagine what a nature show on the Discovery channel would look like in 231 billion colors. The set also comes with a one year warranty.

It's big brother, the 50" plasma P50 HDTV also offers an amazing 231 billion colors, but with the wider picture, it can make watching TV an incredible experience. The set retails at 1,999 directly from Visio, but it can probably be found cheaper if you shop around. This particular set has won some awards, as well. PC Magazine awarded this set its editor's award and Kiplinger's magazine put it on their 2006 best of list. If you're looking for that Visio 37 HDTV, you might want to upgrade to this beauty, you won't be disappointed.

With so many different models on the market, choosing the perfect HDTV for you can be tough. But with these quality Visio models, you can be sure that you'll be getting the best value for your money.
