What is Cenforce?

Cenforce 100 is a medicine that contains the active ingredient sildenafil, and is presented as blue diamond tablets (25, 50, or 100 mg).

What is Cenforce used for?

Cenforce is used to treat adult men with erectile dysfunction (also called impotence), which consists of the inability to achieve or maintain a sufficient erection for satisfactory sexual activity. For Cenforce to take effect, sexual stimulation is necessary. The medicine can only be obtained by medical prescription.
