www.smartinfosite.com/index.php/2017/09/22/increase-traffic/

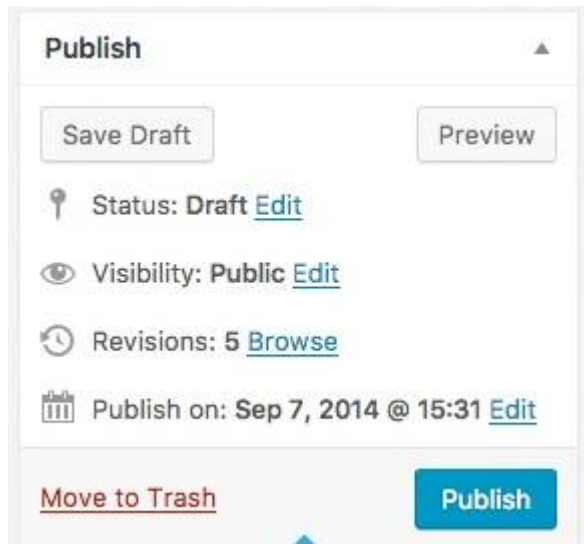

Increase Traffic Today There are many websites online, some of them may get more traffic some of them Don't even get traffic.

When Ever You write the post in your website Make sure that it is SEO compatible. Make Sure to use Long Tail Keywords in the URL of the post, Meta Description, and title. It will help Google to Rank Your Website For A particular keyword. Make Sure That You Post contains 500-1000 Words. Include Images with Alt Attribute To the post. Alt Attribute can bring traffic to your website By Viewing images on google. Almost 20% of traffic gets attracted to the images. So, Images Play Very Important Role in getting Traffic. Use [Yoast SEO Plugin](#). While Writing article It will help You in Creating Unique and Fresh Content.

Social Profiles

Millions of People will be Browsing the news Feed in their [social profile](#) like Facebook, Twitter etc. You can Share Your Article in your social profile and you can get Huge traffic from social Web sites. Many People May have interest in your content. If they Visit your website and Share Your Post with others. Your [traffic will increase](#) and there is a chance of Your content going viral. The more Traffic you get the higher Page rank You get. Therefore, Create Social Profiles and share all the post in those profiles

Regular Publishing

Google indexes Fresh Pages which were Publish in real time. Which Gives You Opportunity To get [Traffic](#) from the search engine. Regular Publishing new post can get You More Visitors and Subscribers to your website Content. Also, Make Sure You Update Your Old Post. So that It can be ranked again or else That Post Will be outranked By Google. If you have More Post Your website. You can Website Bounce rate Will Decrease That Can help You get More Value to your web page. So, regular Publishing is very Important.

Tools

There are So Many Online tools Like Keyword Planner that Can help you for Proper Keyword researching these Tools will show You the search volume and Number Of clicks for the Particular keyword. In Addition, Keywords Planner is Free. You can get Keyword planner in AdWords Account. furthermore, Adwords Keyword Planner is tools by Google. This is used For Keyword Research. you can enter keywords and the tool will help you find the highest searched keyword. To Know How many people are looking for a particular keyword.

Backlinks

After You create Post and Publish it. You have to create backlinks for that post. Backlinks are links from external page to your web page. There are Two Types of backlink Do-follow and No-follow. While creating Backlink Make Sure that You Create Do Follow Backlink. Because they will help you to rank in google. The do-follow link indicates Google Bots That Your web page has some value. No-follow Backlinks are useless. You can get Do-follow link By commenting, Guest posting, and Do-follow Forums.

Conclusion

If You Follow this Instruction I can guaranty that your website can rank in top pages of Google. You can use Paid Tools Like [Ahrefs](#) and SEMrush for keyword research. These Tools Can Help You To Know Your Competitors Backlinks and can help You Our rank your competitors. You can Rank Your Website in one month it will take time to rank your website. So you have to be Patient and keep on publishing post don't Feel Bad For not getting organic traffic. Work Hard and also Have Passion of Publishing the content. One Day Or the Other You will Get in Google Top Pages.
